1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard J. Holzer, Jr. on 07/08/2005.

The application has been amended as follows: Cancel claim 9.

2. Based on applicant's amendment/persuasive argument filed on April 22, 2005, the art rejection for claims 1-8, 15, 18-21, 23-26 and 28 has been withdrawn. Therefore, claims 1-8, 15, 18-21, 23-26 and 28 are allowable.

The following is an examiner's statement of reasons for allowance. The closest prior art of record failed to teach or suggest, adaptively filtering luminance to a degree dependent on the metric of block on the transform encoding artifact visibility, adaptively adjusting local saturation variation to a degree dependent on the metric of block transform encoding artifact visibility, and adaptively simulating high spatial frequency image detail to a degree dependent on the metric of block transform encoding artifact

visibility. Therefore, in combination with all the other limitations claims 1-8, 15, 18-21, 23-26 and 28 are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
